2014

2014 Celebrating 30 years of home security.

30 years of home security

Prowler Proof has manufactured high quality security doors and window screens since 1984. Always on the cutting edge, welding robots and on-line ordering were introduced last century. This century saw us introduce the paperless factory and ForceField® - the strongest and best looking security screen on the market. In 2008 we were a double finalist in the Telstra Business Awards and in 2012 we achieved a 'World Class' ranking on the PROBE Manufacturing Global Benchmark.

Prowler Proof remains a 100% Australian owned and operated family business.
